

SGMS Storm Jets

The power of the storm has returned with Waterway's new SGMS Storm Jet Bodies. Waterway's SGMS technology allows for easier installation and increased installation capacity. Installing is as simple as drilling the hole, inserting the grommet and pressing in the body. There's no need to spot face and no need for silicone, gaskets, nuts or compensating rings.

Features

- SGMS Sure Seal Technology
- Fast and easy to install
- Available in Cluster, Mini, Poly and Power sizes
- Available in smooth or ribbed barbed plumbing
- LED ready

SGMS Storm Jets

Specifications

- EPDM Grommet Gasket
- Clear Fitting Grade PVC
- Made of NSF approved materials
- Made in the USA

SGMS Storm Jets

Smooth Barb	Ribbed Barb	Part Description
228-2418	228-2408	Cluster Storm SGMS Grommet, 3/4" x 3/8"
228-3418	228-3408	Mini Storm SGMS Grommet, 3/4" x 3/8"
228-4418	228-4408	Poly Storm SGMS Grommet, 3/4" x 3/8"
228-5418	228-5408	Power Storm SGMS Grommet, 3/4" x 3/8"

SGMS Measurements

Body	Hole Saw Size (in and mm)		A Dimension	B Dimension
SGMS Cluster Storm Jet	1.65"	41.9mm	Ø49mm	68mm
SGMS Mini Storm Jet	2.34"	59.5mm	Ø68mm	89mm
SGMS Poly Storm Jet	2.84"	72.2mm	Ø78mm	103mm
SGMS Power Storm Jet	3.96"	100.8mm	Ø117mm	132mm

SGMS components must be installed in accurately drilled holes pertaining to the correct hole saw size listed in the above chart. Failure to properly drill and measure holes may lead to the seal leaking. Waterway assumes no responsibility for issues caused by incorrectly installed parts.
