

A600 DESIGN

New skimmer

A HIGH PERFORMANCE TOP QUALITY MODEL FOR LEVELLING CLOSE TO THE EDGE.

This new model is larger than the A400 and stands out from the other Weltico Design range skimmers.

FEATURES

- UV-resistant ABS.
- Inside thread 1.5", outside thread 2", Ø 50 mm, to be glued.
- Customised finish available: colour or stainless steel.

Its parts are used on other skimmers as well (basket, weir and throat extension).

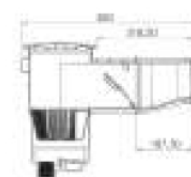

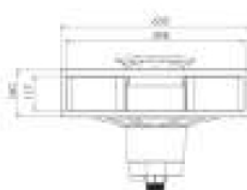

- Delivered in two parts (mouth and rear base to glue onsite).
- Glue supplied.
- Same suction capacity as the A400.
- Can be connected to the level regulator and overflow (see next page).
