

Sand Filter Systems

Standard Sand Filter Systems offer the same filter as our Deluxe Systems but are combined with our Hi-Flo II pump.

Features:

- Large sand filter bodies for extra-long filtering cycles and heavy-duty capacity
- Each system is designed for quick assembly and precise alignment of components
- Pump and filter performance matched to provide optimum flow and energy efficiency
- 7-position, threaded multi-port valve is easy to use and install
- High performance single and dual-speed pump
- Standard one-piece pump and filter mounting base
- Long-lasting stainless steel pressure gauge

Specifications:

Filter type:	High-Rate Sand: No. 20 Silica
Filter tank:	Roto-Molded Polymeric
Underdrain:	360° self-cleaning, slotted laterals - threaded for ease of maintenance
Control Valve:	7-position, top-mount, multi-port with lever-action handle
Valve Fastening:	Split-nut thread design
Pump & Motor:	Hi-Flo II Series pump - 115 volts
Mounting Base:	Molded thermoplastic
